ABOUT SCSE

The Society of **Computer Science and Engineering (SCSE)** at *NIT Jamshedpur is* a dynamic and forward-thinking organization, founded by Prof. Danish Ali Khan, Head of the CSE Department.

SCSE organizes a diverse range of hackathons, coding contests, workshops, and tech talks, covering fields such as Artificial Intelligence (AI), Machine Learning (ML), Web Development, Competitive Programming, and several others. We regularly invite industry leaders and alumni to share insights, helping students stay ahead in the rapidly advancing world of technology.

Apart from technical events, SCSE also hosts competitions, gaming tournaments, and networking meetups to encourage students to think beyond academics. We provide placement preparation sessions, guiding students on interview strategies, resume building, and career pathways in top tech companies.

WHAT IS XAVENIR ?

Code to the Future

Xavenir is the premier tech fest of the CSE Department at NIT Jamshedpur, designed to bring together the brightest tech minds from across the country. A fusion of coding, innovation, AI, cybersecurity, and gaming, Xavenir is the perfect platform to showcase your skills, learn from industry experts, and compete for exciting prizes.

Whether you are a coder, designer, entrepreneur, or tech geek, this fest is for YOU!

Workshops and Guest Talks from Top Industry Professionals
